

PROPOSAL 3

THE PROMISE OF RENEWABLE ENERGY FOR MICHIGAN

WEDNESDAY, OCT. 24TH
CITY OPERA HOUSE, 5:30-7:30

If you liked what the industrial revolution and the automobile industry contributed to Michigan's economic well-being, wait until you hear what renewable energy offers!

On Oct. 24, have all your questions answered about Proposal 3, which would require that 25 percent of Michigan's electricity come from renewable sources by 2025. Join **Skip Pruss, former director of the Department of Energy, Labor and Economic Growth and Michigan's former Chief Energy Officer**, to hear about the benefits of renewable energy for Michigan's economy, public health, job growth, security and environment.
