

# BetterBuildings for Michigan: Making Michigan More Energy Efficient— One Building at a Time!

When your home or business loses energy, you lose money. That's why we've built a program from the ground up, focusing on communities across Michigan to help families and businesses save hundreds on their energy bills.

BetterBuildings for Michigan gives families and businesses the financial tools and expert advice to make affordable energy saving improvements.

Join us in this statewide movement to make Michigan more energy efficient. Together we can make a difference one building at a time.

- The BetterBuildings for Michigan residential program provides direct support—including **home energy assessments, incentives** and **access to affordable loan options**—to Michigan homeowners looking to make their homes more energy efficient.
- The residential program will offer energy efficiency improvements to more than **11,340 homes** statewide.
- Participating homeowners can expect to save hundreds on their utility bills while improving the comfort and value of their home.
- The **SmartBuildings Detroit** program leverages other incentives and energy optimization programs available to commercial property owners to encourage energy efficiency improvements in commercial, institutional and public buildings in downtown Detroit.

For more information about the residential and commercial programs, visit [www.betterbuildingsformichigan.org](http://www.betterbuildingsformichigan.org).

BetterBuildings for Michigan uses a community approach to deliver energy efficiency improvements for homes and businesses by providing access to incentives and affordable loans. The program is supported by the American Recovery and Reinvestment Act (ARRA) and developed by the Michigan Energy Office; Michigan Saves; the City of Grand Rapids; the Economic Development Corporation of the City of Detroit; and the Southeast Michigan Regional Energy Office.
